

IBM692-nn

Product Specifications

The IBM692 simply grips the AnyPlace power pack using friction pad design. The mount can be fixed to any surface including wall, counter, checkout or shelving, helps to prevent cable strain after installation on any AnyPlace configuration.

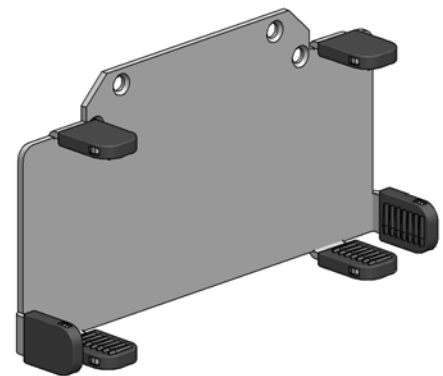

Technical Specifications

Power Pack Holder	√
Rubber Friction pads	6
Footprint	179 x 96mm (W x H)
Colour <nn>	05-Iron Grey
Warranty	5 Years

Note: No fixings are provided on wall mounts, the installation engineer needs to ensure the right screws are used for the particular wall they are fixing to.

All SpacePole installations for the AnyPlace ensure the Kiosk can be installed in any environment in a safe and secure manner, providing piece of mind for the investment made on the technology.
